Solving Teaching and Learning Challenges

The Rupert/Anderson/Hulse 2021 Series in Federal Taxation is appropriate for use in any first course in federal taxation, and comes in a choice of three volumes:

• Federal Taxation 2021: Individuals
• Federal Taxation 2021: Corporations, Partnerships, Estates & Trusts (the companion book to Individuals)
• Federal Taxation 2021: Comprehensive (available in eText only; 14 chapters from Individuals and 15 chapters from Corporations)

The Individuals volume covers all entities, although the treatment is often briefer than in the Corporations and Comprehensive volumes. The Individuals volume, therefore, is appropriate for colleges and universities that require only one semester of taxation as well as those that require more than one semester of taxation. Further, this volume adapts the suggestions of the Model Tax Curriculum as promulgated by the American Institute of Certified Public Accountants

• The Corporations, Partnerships, Estates & Trusts and Comprehensive volumes contain three comprehensive tax return problems. Problem C:3-66 contains the comprehensive corporate tax return, Problem C:9-58 contains the comprehensive partnership tax return, and Problem C:11-62 contains the comprehensive S corporation tax return, which is based on the same facts as Problem C:9-58 so that students can compare the returns for these two entities
• The Corporations, Partnerships, Estates & Trusts and Comprehensive volumes contain sections called Financial Statement Implications, which discuss the implications of Accounting Standards Codification (ASC) 740. The main discussion of accounting for income taxes appears in Chapter C:3. The financial statement implications of other transactions appear in Chapters C:7, C:8, and C:16 (Corporations volume only)

Real-World Approach

The Pearson 2021 Series in Federal Taxation has an appropriate blend of technical content of the tax law with a high level of readability for students. It is focused on enabling students to apply tax principles within the chapter to real-life situations using many strong pedagogical aids:
Real-World Example
These comments relate the text material to events, cases, and statistics occurring in the tax and business environment. The statistical data presented in some of these comments are taken from the IRS’s Statistics of Income at www.irs.gov.

Book-to-Tax Accounting Comparison
These comments compare the tax discussion in the text to the accounting and/or financial statement treatment of this material. Also, the last section of Chapter C:3 discusses the financial statement implications of federal income taxes.

What Would You Do in This Situation?
Unique to the Rupert/Anderson/Hulse series, these boxes place students in a decision-making role. The boxes include many controversies that are as yet unresolved or are currently being considered by the courts. These boxes make extensive use of Ethical Material as they represent choices that may put the practitioner at odds with the client.

Stop & Think
These “speed bumps” encourage students to pause and apply what they have just learned. Solutions for each issue are provided in the box.

Ethical Point
These comments provide the ethical implications of material discussed in the adjoining text. Apply what they have just learned.

Tax Strategy Tip
